Larson Limestone Co. announces contract with Kennecott Copper

LEHI, Utah (AP) — Larson Limestone Co. Inc., a wholly owned subsidiary of Environmental Technologies Group International, Friday announced it has been awarded a three year contract to supply ground limestone to Kennecott Copper Corp.

The contract calls for Larson Limestone to supply up to 290,000 tons of finely ground limestone and up to 130,000 tons of coarsely ground limestone over a three year period for a total contract price of

up to \$7.65 million for the contract period.

According to Farrel Larson, president of Larson Limestone, "This contract is the first of what we hope are many contracts to produce and deliver ground high calcium limestone to customers in heavy industry."

Environmental Technologies Group International is a synergistic group of companies dedicated to recycling yesterday's wastes into tomorrow's resources.
